

Mentoring System

- A group of 15-20 students (mentees) are assigned to a faculty mentor at first year level.
- A mentor records personal data of each student including parent contact details, regular attendance, academic and communication details into mentor's diary.
- A mentor or proctor, a member of the faculty, so entrusted with the responsibility, pays personal attention to and monitor student's academic progress in institution hours and behavioural process too.
- This helps to closely monitor student's progress in terms of his/her attendance, punctuality, academic performance, and learning capabilities.
- The system provides an early warning through the mentor's feedback on a periodic basis to the parents/guardians, heads of departments, course coordinators and principal on classified needs for their intervention and mid-course corrections.
- Mentors provide guidance to mentees not only in academic matters but also in personal (if necessary) and career related matters.
- Meetings :
 - 2 to 3 in a semester
 - Need based.
